

14 March 2007

Dear Participant,

The Final Cut-off date for the new cycles - sample 1 - will change for the following programmes:

Haematology
Chemistry
Cardiac
Drugs
Proteins

On the instruction sheet given to you the final cut-off date for sample 1 is 23 March 2007. It will change to 6 April 2007. Take note that this is not a letter to state that samples will be late and that you will get a no return, but we are officially changing the date in our system as well.

If you have any queries regarding this change, please give me a call.

Regards,

Marlize Albertse
General Manager
