

Re: Not more than two email addresses per programme for emailed reports

Dear Participant

We have been experiencing problems with reports not reaching their destinations and we have come to the conclusion that this is because we have more than two email addresses linked up for some laboratories.

Unfortunately, we will have to revert back to using only two email addresses for each programme for each lab. This way we can track the emails better and if any problems occur we can trace them.

Please email Phumi on phumi@thistle.co.za, to make sure your email addresses are correct and that the correct people are receiving reports.

Please contact me if you have any questions regarding this.

Kind regards
