

25 July 2007

Dear Participants

Just to let you know that Randox have now combined the Urinary Protein serum and Albumin calibrators, analyte codes PROTA and PROTS.

From cycle 31, sample 1 onwards, the analyte code will be PROTA, and the method codes will be the same as those listed under PROTA previously. All of our PROTS participants have been moved over to PROTA from the start of cycle 31 and their results have been reprocessed so that they do not lose their Levey-Jennings plots.

If you have any further questions, please do not hesitate to contact us.

Kind regards

Marlize Albertse
General Manager
