

Re: Thistle QA Microbiology Result Sheet

Dear Microbiology Participant

We have noticed that a lot of laboratories send us their in-house forms when submitting Thistle QA Microbiology result sheets.

We have used these in the past to enter the Microbiology results, but we have to stick to strict protocols in order to satisfy our SANAS accreditation requirements. In the future we will only accept results on Thistle QA Microbiology result sheets.

Please note, that from the date of this letter, we will not accept any other results other than the Thistle QA Microbiology result form.

We regret any inconvenience this may cause.

Kind regards

Dr. Jim McCulloch
Director
